- 8.4. **15% Difficulty:** Reflected by difficulty of turns, intricacy of shines, movements, & coordination of the body and the level of tricks. Examples: The amount of spins are done on both feet or on a one foot, on the floor or in the air. How intricate were the shines? How about jumps, kicks, extensions? Are there any movements requiring exceptional balance, flexibility or strength? In order to get credit for any of these, the technique/movement must be successfully executed.
- 8.5. **15% Choreography:** Being original is the main factor. Do you look like everyone else or does your routine stands out from the rest? How do you interpret the music? Good choreography should contain clever shines. Dancers should show a good usage of the space itself.
- 8.6. **10% Overall Presentation:** costuming, hair, make-up. Do you look like our next champion? Showmanship, and do you show respect to other competitors. Confidence, energy, emotion and expression are a must, connection with the judges.
